Product Features

A purchase product lets you spread the cost of buying an asset with regular payments over an agreed term (typically three to five years, minimum one year), a deposit may be required. Lombard will own the asset for the duration of the agreement and at the end, provided you've made all the payments due, you'll have the option to purchase the asset(s) by paying an Option to Purchase fee.

- Interest rates are fixed
- An administration fee may apply

- You may be able to choose to have a final lump sum repayment (balloon) on the agreement.
- Fees and additional charges or interest may apply if you wish to make changes to your repayments once the agreement has started. You may need to sign a Letter of Variation in these cases before any such changes can take effect.
- There may be an early repayment charge if you settle the agreement early.

IMPORTANT

- The purpose of a balloon is to reduce the amount of your regular repayments to fit your individual budget.
- The balloon must be paid in full at the end of the agreement, so you must ensure you have the funds ready at the time they're due.
- Having a balloon on your agreement will likely cost you more in interest than if you didn't have one. Consider what's right for you and compare quotes or speak to a Relationship Manager if you want to know more.
